Utility classes

t n

m r s

p b m

l l

margin | padding  
top | right | bottom | left  
none | small | medium | large  
ex. .mtl → margin-top large

.w

\*

\*

p

width + value (+ pixel)  
ex. .w30 → width: 30%;  
ex. .w100p → width: 100px;

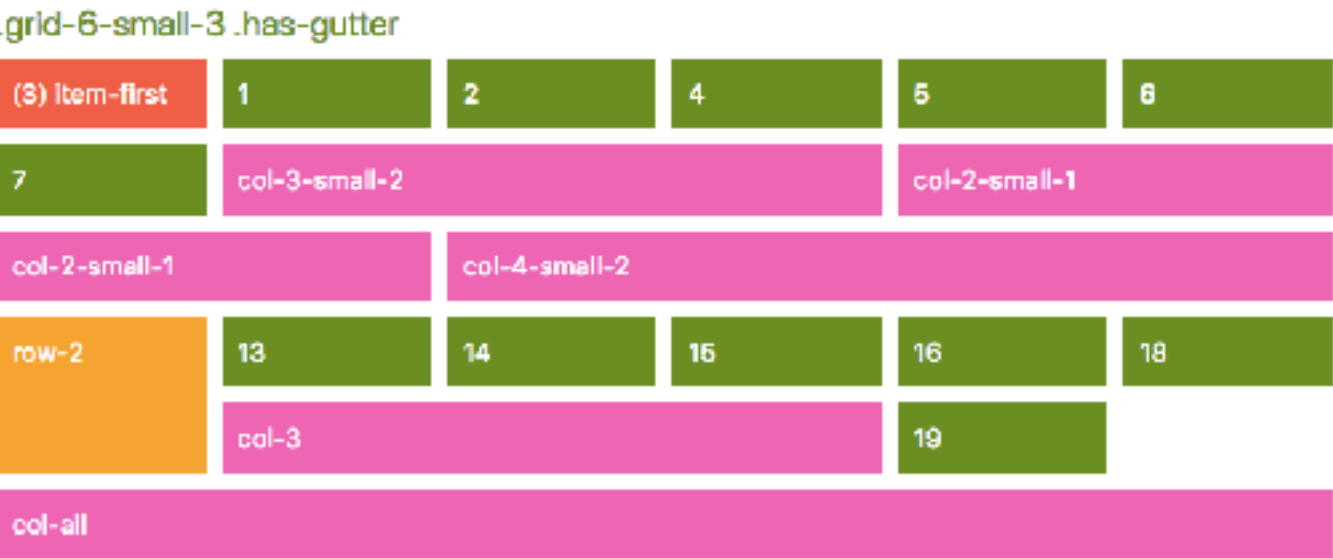

Grillade container

**.grid**  
one line grid (equal width children)

**.grid-number**  
multi-column grid (1 to 12)  
ex. .grid-6 → 6 columns grid

**.grid-number-small-number2**  
multi-column grid with intermediate breakpoint  
ex. .grid-4-small-2 → 2 columns (< medium) then 4 columns

**.has-gutter-value**  
optional for gutters (.has-gutter | .has-gutter-l | .has-gutter-xl)  
ex. .grid-8 .has-gutter → 8 columns grid with small gutter

Grillade children

**.col-number**  
number of column spanning (1 to 12)  
ex. .col-2 → items is 2 columns width

**.row-number**  
number of rows spanning (1 to 12)  
ex. .row-3 → items is 3 rows height

**.col-all | .row-all**  
all columns or rows spanning  
ex. .col-all → items spans all columns

**.col-number-small-number2**  
spanning with intermediate breakpoint  
ex. .col-4-small-2 → 2 columns (< medium) then 4 columns  
ex. .col-2-small-all → all columns (< medium) then 2 columns

**.item-first | .item-last**  
item will appear first or last in grid

**.grid-offset**  
item leaves empty space in grid

Spacers

**\$spacer-tiny** : .5rem

**\$spacer-small** : 1rem

**\$spacer-medium** : 2rem

**\$spacer-large** : 4rem

**\$spacer-extra-large** : 8rem

**\$spacer-ultra-large** : 16rem

Alignements

**.left** : block to left

**.right** : block to right

**.center** : centered block

**.txtright** : inline to right

**.txtcenter** : inline to center

**.fl** : float left

**.fr** : float right

**.clear** : clear both

**.clearfix** : float container

**.bfc** : block formatting context

**.inbl** : inline-block

**.flex-container**

**.flex-container--column**

**.item-fluid**

**.item-center**

**.item-first | .item-medium | .item-last**
